**DETAILED ACTION**

***Allowable Subject Matter***

Claims 1, 3-13 and 15 are allowed.

The following is an examiner's statement of reasons for allowance: The closest prior art of record is listed on the PTO 892 and IDS forms of record. None of the references or combinations thereof anticipate or make obvious a substrate device comprising a second electrode arranged to face the first electrode, and a dielectric film including a nitride film arranged between the first electrode and the second electrode such that the first electrode is at a bottom surface of the nitride film and the second electrode is at a top surface of the nitride film; the nitride film having an aperture formed vertically above the semiconductor layer in plan view as required by the present Claims. The terminal disclaimer filed on 3/15/2006 obviates the obviousness double patenting rejection of record. Therefore, the present Claims are allowable over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
